

UW-Madison Dairy Brain Newsletter June

The Dairy Brain internal monthly meeting was held on Thursday June 27th.

During the American Dairy Science Association meeting in Cincinnati, OH, that was last week, we had a morning symposium titled

- Production, Management, and the Environment: Advancing Artificial Intelligence on Dairy Farms
<https://www.adsa.org/Meetings/2019-Annual-Meeting/Program>
- We presented some of the preliminary results and vision of the Dairy Brain project.
- It was an exciting venue for exchange of ideas with other researchers.

We will expand our Advisory Committee and morph it into our Coordinated Innovation Network (CIN). If you know of anyone who you think will be a good candidate to participate, please share the name with us @ lfpacheco@wisc.edu

Please look for additional information about [CIN](#) (see attached documents)
